Formulation Code: 095-14-00-00/1

Method

- Add phase A to a beaker.
- Heat phase A to 70°C under stirring, once the temperature is reached, hold this temperature for at least 20 minutes.
- Place phase A on an overhead mixer and stir at 300RPM.
- Add phase B to phase A in a constant stream.
- Allow to cool to below 35°C then add phase C.

Characteristics

Stability

Stable for 3 weeks at 50°C and 3 months at 40°C

Appearance

Viscous Yellow Oil

PH

5-7 (10% Sol.)

Viscosity

N/A

✓ PEG Free

✓ Vegan

✓ COSMOS Approved

✓ Natural Origin

✓ Preservative Free

Ingredient Benefits

Micromulse® Foam

- COSMOS Approved
- 100% natural origin
- RSPO MB
- Globally approved
- Easy-to-use liquid blend
- Versatile – can be used with different oils
- Mild formulation – suitable for sensitive skin products
- Cold process
- Gluten free
- Vegan

Adapt the Formula

- Reduce the level of Micromulse® Foam for less foam.
- Change the oil phase for different benefits to the skin.
- Change the essential oils for different scent.
- Change the level of estogel green for a different texture.
