Eyelash care should

- Significantly prolong the eyelash growth phase
- Trigger new eyelash regrowth
- Multiply the number of eyelashes
- Protect eyelashes with a sheath

Examples of market products

Eyelash Enhancer ORPHICA REALASH

The eyelash growth phase lasts about 30 days. This is not enough for the eyelashes to become long and thick. The advanced REALASH formula **accelerates the natural growth of eyelashes** and **strengthens** them from the roots, so that the eyelashes become **longer and stronger**. The formula of this serum also **prevents loss** of eyelashes.

Eyelash Enhancer MIRALASH

Miralash is a revolutionary eyelash enhancer. Its ingredients make it exceptional and much more effective than other enhancers. Recommended by cosmetologists, Miralash is constantly in the centre of attention of women around the world. Miralash is the key **to long, thick and luscious lashes**.

Revitalash Advanced REVITALASH COSMETICS

A unique eyelash treatment, with a formula developed by an ophthalmologist, which sublimates the appearance of the eyelashes by **nourishing and strengthening** them in order to fight against breakage while improving their flexibility for healthy lashes, naturally.

Eyelash Enhancer ÉLEVERLASH

ÉleverLash stimulates the roots of the eyelashes. Due to the direct application to the eyes, all conditioners penetrate the bulbs of the hair follicle, making the effect almost immediate. ÉleverLash conditioner nourishes, strengthens, nourishes, regenerates, strengthens lashes and eyelid skin, and stimulates **eyelash growth**. Thanks to this, the eyelashes grow faster, they are **stronger, longer, thicker** and thicker and **less susceptible to loss** and mechanical damage.
