Environmental Policy

Alfa Chemicals is a speciality chemical distributor. We supply products via three dedicated divisions serving the Industrial, Pharmaceutical and Personal Care industries. Our business is the distribution of products across the UK and other global territories; our responsibility is to conduct this business in a way which minimises the impact on the environment that we all share.

We commit to:

- Minimising, so far as possible, any detrimental impact our operations have on the environment
- Maintaining our membership of the CBA (Chemical Business Association)
- Promote environmental awareness across our business and to the wider business community
- Promote energy conservation and recycling to our personnel
- Reduce our consumption of resources
- Reduce our reliance on environmentally damaging products where alternatives are available

We shall do this by:

- Maintaining an up-to-date legal register; fulfilling our regulatory and legal responsibilities
- Reducing the environmental impact of our business processes as far as possible
- Monitoring our utility usage and consumption of materials
- Carrying out regular site inspections of our office to see how we could improve
- Providing resource to support our EMS (Environmental Management System) function
- Sharing our energy & resource consumption, GHG emission and waste data with suppliers and customers to increase supply chain transparency.
- Joining industry initiatives & associations such as CBA and RSPO to promote sustainable procurement and consumption in a collaborative manner.
- Using Public databases and/or platforms as an opportunity to benchmark environmental performance against industry peers.
- Providing our employees with training and information so they can assist the business with reducing its environmental footprint.
- Ensuring Company asset purchasing (e.g. electricity lighting etc.) is conducted with respect to environmental consideration.
- Attending environment themed workshops, seminars and industry events

Our policy will change as our business does, but we will:

- Review this policy every 12 months
- Ensure updates to this policy are clearly communicated to our personnel
- Incorporate this policy into the induction of every new starter

Approved by on behalf of the Board:

17/12/2020

Dr E Auty, Director – Pharmaceutical & Quality.
