### Who we are:

Furlong Flooring were founded over 40 years ago, and remain a family owned UK based manufacturer and distributor of domestic and commercial flooring. Our ranges consist of carpet, vinyl, LVT SPC, laminate and wood flooring (including accessories) to the UK and Ireland market place.

Founded in 1974 in Ireland the group has evolved and grown into one of the UK's largest carpet manufacturers.

As a group we are innovative and forward thinking, which puts our customers at the heart of everything we do. Our direction comprises of five strategic pillars, product, price, service, quality and point of sale.

### What we do:

We design, manufacturer and supply first choice flooring for everyroom UK-wide, with an outstanding industry leading service and stock holding. **98%** of orders are delivered in full within 3 working days of the order being placed from our fully stocked warehouses by our own fleet of 50+ HGV vehicles.

### Environment & Sustainability

As a group we now recycle 99.9% of all waste to ensure our impact on the environment is minimal.

Our mission is for the group to achieve net zero carbon emissions by 2030.

By utilising renewable energy sources, developing sustainable recycled products and ensuring we focus on continuous improvement, the board of Directors strive to continue eliminating waste and reducing our energy consumption to achieve this ambitious vision.

### Customer Focus

We partner with all customers to form an integrated supply chain to ensure all projects are completed on time and to budget. Our product and service offering to each customer is to meet and exceed all expectations. From ring-fencing stock for project led customers, to producing bespoke customer branded product displays, folders and point of sale. We strive to exceed all expectations to make dealing with Furlong Flooring the easiest part of our customers lives.

We supply the majority of our carpet ranges on our unique award winning Combi-bac® backing which helps to reduce the amount of wall scuffing, delamination, and creases during the installation process.
