First choice flooring for every room

Laminate Care Guide

Our laminate wood

Just like our natural wood flooring, you need to do a couple of simple things to make sure that it gives you the beauty and long life you're looking for.

Here are our quick tips for keeping it looking fantastic:

Use protective pads on furniture – to avoid scratches, just stick protective pads to the feet of your furniture.

Lift furniture, don't drag – it's good advice for any flooring type. Dragging furniture can damage the floor, so always lift if you can.

Use castor protectors – these are little discs that your castors sit on and help to prevent dents and damage to the floor.

Protect high traffic areas – these are the places that flooring often gets damaged. Using mats or rugs can help to extend the life of your laminate flooring.

Clear spills quickly – you can clean the flooring with a microfibre cloth or a dusting-style mop, but clean up any water or spills immediately to protect the integrity of the flooring.

TOP TIPS

Always lift your
furniture and
do not drag

Use castor
furniture discs to
prevent dents and
damage to the
floor

Don't use
a soaking wet
mop on laminate
flooring, as this can
cause it to warp and
water seeps into
the under
layers

Sweep your
floor with a soft
brush or vacuum
your floor using
the hard floor
attachment

Move fast!
The sooner you
tackle a spill
the better

Never use a
scouring pad or
other abrasive
implements to
clean laminate
flooring
