

MEDITE SMARTPLY - Hazardous Materials Declaration

All MEDITE MDF and SMARTPLY OSB products are manufactured from wood sourced from local forests and sawmill residues.

During manufacture the wood is reduced to strands or fibre, dried and then adhesive and wax are added which enhances its physical strength and water repellent properties.

MEDITE MDF and SMARTPLY OSB products do not contain any hazardous materials, metals, phthalates, asbestos, halogenated compounds, or allergenic compounds.

MEDITE MDF and SMARTPLY OSB products do not contain any biocide or preservative products. Raw materials which contain pentachlorophenol (PCP), Isothiazolinones and methylisothiazolinone are not used in the manufacture of MEDITE MDF and SMARTPLY OSB products.
