This information is reported by Together for Girls.
Honduras - physical violence in childhood in urban areas

Prevalence of physical violence before age 18, among 18-24-year-olds

Statistically significant difference between males (national vs. Urban)
VACS report only includes urban area data if there is a statistically significant difference with national data
Honduras - physical violence by parent/caregiver in urban areas

Physical violence before age 18 by parent/caregiver, among 18-24-year-olds

- Statistically significant difference between males and females
- Statistically significant difference between national and urban areas
THE MAGNITUDE OF EMOTIONAL VIOLENCE AGAINST CHILDREN

% of youth who experienced emotional violence prior to age 18 as reported by 18-24 year olds

- Honduras
  - Girls: 15%
  - Boys: 8%

- El Salvador
  - Girls: 12%
  - Boys: 4%

Together for Girls
Honduras - emotional violence in childhood in urban areas

Prevalence of emotional violence before age 18, among 18-24-year-olds

Statistically significant difference between males and females
Females in urban areas more likely to experience emotional violence
SEXUAL VIOLENCE IN THE PAST 12 MONTHS

% of 13-17 year old females & males who experienced sexual violence in the last 12 months

El Salvador
- Girls: 3%
- Boys: 7%

Honduras
- Girls: 5%
- Boys: 6%
WITNESSING VIOLENCE IN CHILDHOOD

% of youth who witnessed physical violence in the home prior to age 18 as reported by 18-24 year olds

<td>9%</td>
</tr>
</tbody>
</table>

*Unreliable estimate (RSE>30%)

1Includes participants who endorsed one or more of the following: it is acceptable for a husband to beat his wife if she: goes out without telling him; neglects the children; argues with him; refuses to have sex with him; is suspected of having an affair
Migration
Honduras – Experiences of migration

Migration and parental migration before age 18, among 18-24 year-olds

Average age of child when parent migrated

Mother migrated
- Females: 25%
- Males: 19%
- Average age: 11 years

Father migrated
- Females: 44%
- Males: 38%
- Average age: 8 years

Child migrated
- Females: 2%
- Males: 5%
- Average age: 7 years
Honduras – Experiences of migration

Migration and parental migration before age 18, among 13-17 year olds

- Mother migrated: 20% (Females), 15% (Males)
- Father migrated: 41% (Females), 33% (Males)
- Child migrated: 2% (Females), 1% (Males)

Average age of child when parent migrated:
- Mother migrated: 9 years
- Father migrated: 6 years (Females), 5 years (Males)
- Child migrated: 9 years (Females), 10 years (Males)
El Salvador – Experiences of migration

Migration and parental migration before age 18, among 18-24 year olds

- **Mother migrated**
  - Females: 14%
  - Males: 8%

- **Father migrated**
  - Females: 30%
  - Males: 18%

- **Child migrated**
  - Females: 3%
  - Males: 4%

Average age of child when parent migrated:
- Mother migrated: 7 years, 10 years
- Father migrated: 6 years, 8 years
- Child migrated: 13 years, 17 years
El Salvador – Experiences of migration

Migration and parental migration before age 18, among 13-17 year olds

- **Mother migrated**
  - 9% Females
  - 8% Males

- **Father migrated**
  - 27% Females
  - 22% Males

- **Child migrated**
  - 1% Females
  - 1% Males

Average age of child when parent migrated:
- Father migrated: 5 years
- Mother migrated: 7 years
- Child migrated: 8 years

Average age of child when parent migrated:
- Father migrated: 5 years
- Mother migrated: 7 years
- Child migrated: 13 years
Any violence in childhood, by whether one or both parents migrated or were displaced for 6 months, as reported by 18-24 year olds in Honduras.
REMITTANCES

% of youth who received money or goods from the United States in the past 3 years

Females  Males

Among:

18-24 year olds

El Salvador  23%  13%

Honduras  19%  15%

13-17 year olds

El Salvador  17%  17%

Honduras  13%  13%
